IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Patent Application of:
Yu et al.

Docket No.: PF343P3C5

Application No.: 09/589,288

Confirmation No.: 1519

Filed: June 8, 2000

Art Unit: 1647

For: Methods of Treatment Using Antibodies to
Neutrokin-alpha (As Amended)

Examiner: B. E. Bunner

INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In accordance with the duty of disclosure imposed by 37 C.F.R. § 1.56 to inform the Patent and Trademark Office of all references coming to the attention of each individual associated with the filing or prosecution of the subject application, which are or may be material to the patentability of a claim of the subject application, Agent for Applicants hereby directs the Examiner's attention to references E1-E3 listed on the attached Form PTO/SB/08. A copy of the non-U.S. patent reference is enclosed.

Identification of the listed references is not to be construed as an admission of any individual associated with the filing or prosecution of the subject application that such references are available as "prior art" against the subject application. Furthermore, Applicants do not waive any rights to take appropriate action to establish patentability over any of the listed documents should they be applied as references against the claims of the subject application.

The listed references are presented so that the Patent and Trademark Office can determine any materiality thereof to the claimed invention. See 37 C.F.R. § 1.104(a) concerning the Examiner's duty to consider and use any such information. Applicants respectfully request that the Examiner make the listed references of record in the file history of the application, and consider the information contained therein during the prosecution of this application.

Pursuant to 37 C.F.R. § 1.97(d), since this Information Disclosure Statement is being filed after the mailing date of a Final Office Action, or a Notice of Allowance under 37 C.F.R.

§ 1.311, or an action that otherwise closes prosecution, but before payment of the Issue Fee, the Patent and Trademark Office will consider this Information Disclosure Statement if it is accompanied by a statement as specified in 37 C.F.R. § 1.97(e) and by the fee as specified in 37 C.F.R. § 1.17(p).

Accordingly, the undersigned certifies pursuant to 37 C.F.R. § 1.97(e)(2) that no item of information contained in the Form PTO/SB/08 submitted herewith was cited in a communication from a foreign patent office in a counterpart foreign application, and, to the knowledge of the undersigned, after making reasonable inquiry, no item of information contained in the Form PTO/SB/08 submitted herewith was known to any individual designated in § 1.56(c) more than three months prior to the filing of this Information Disclosure Statement.

Specifically, reference E1, U.S. Patent No. 6,869,605, issued March 22, 2005 and Reference E2, U.S. Patent No. 6,875,846, issued April 5, 2005. Applicants note that the earliest priority date of both patents are well after the earliest priority date of the present application. Moreover, both provisional applications to which U.S. Patent No. 6,869,605 claims priority, i.e. provisional application numbers 60/117,169 and 60/143,228, were already disclosed to the Patent Office in this case with Applicants' Information Disclosure Statement filed August 20, 2001 (see references A11 and A12).

Additionally, reference E3, was submitted to the European Patent Office on March 14, 2005 in conjunction with Opposition Proceedings against EP Patent No. 1146892 issued to Biogen Inc. and Apoxis SA. Reference E3 is the response of Biogen Inc. and Apoxis SA to Oppositions of EP Patent No. 1146892 lodged by Human Genome Sciences Inc. (HGS) and Serono International SA (Serono). Applicants are submitting E3 because statements have been made in E3 characterizing the disclosure of International Application Number PCT/US96/17957, an application to which the present application claims priority. (See, for example, paragraph 2.2, paragraph 2.5, section 6.2 and section 7 on pages 2, 3, 10-16 and 21-24 of reference E3, respectively). International Application Number PCT/US96/17957 published as International Patent Publication Number WO98/18921 which is referred to as reference D1 below and as reference C1 in reference E3.

To set reference E3 in context for the Examiner, Applicants also provide herewith a copy of EP Patent No. 1146892 issued to Biogen Inc. and Apoxis SA, and copies of Human Genome Sciences' (HGS) and Serono's Oppositions to EP Patent No. 1146892. In HGS' opposition, HGS cited references D1-D10. Serono also relied on references D1-D10, in-part, and

additionally cited references D11-D14 in its Opposition filings. References D1-D3 and D5-D10 relied on by HGS in its Opposition filing were already cited to the Patent Office in this case as reference B3, A33, A13, A62, A57, A59, A5, A11 and A12 (See Applicants' Information Disclosure Statements filed August 20, 2001 for "A" references and May 3, 2002 for "B" references). Reference D4 relied on by HGS in its Opposition filing is the priority document to reference A20 cited in this case in Applicants' August 20, 2001 Information Disclosure Statement. Additional documents D11, D12 and D14 relied upon by Serono in its Opposition filing were already cited to the Patent Office in this case as references A30, A29 and A21 in Applicants' August 20, 2001 Information Disclosure Statement. Reference D13 relied upon by Serono has not been cited in the present application, but is a tangential reference that relates to the definition of the term "hypertension." Finally, reference E3 makes reference to document C12, a post filing date review article by David Wallach, dated 2001. Copies of references D13 relied upon by Serono and C12 cited in E3 are provided herewith as a courtesy to the Examiner.

The Patent & Trademark Office is hereby authorized to charge our Deposit Account No. 08-3425 in the amount of \$180.00 as payment of the required fee, as itemized on the Fee Transmittal Sheet submitted concurrently herewith. The Patent & Trademark Office is also authorized to charge any additional required fee or credit any overpayment in connection with this submission to our Deposit Account No. 08-3425.

Dated: June 10, 2005

Respectfully submitted,

By Michele Shannon
